

Summer Scholars 2008

Front Row (left to right):

Norm Lee, Dr. Carol Capello (Program Co-Director)

Middle Row (left to right): Christina Rabinak, Aerin Spitz,
Dr. Veronica Lo Faso (Program Co-Director), Xun (Julie) Lian,
Rachel J. David, Janice Cheng, Ethan Brown

Back Row (left to right): Katherine P. Heyman,
Melissa Boeck, Tim Brown

Last Name	First Name	Home Institution	Research Institution	Research Topic	Research Mentor(s)
Rabinak	Christina	Weill Cornell Medical College	Weill Cornell Medical College	Dopamine Agonist Withdrawal Syndrome	Melissa Nirenberg, MD, PhD
David	Rachel J.	Weill Cornell Medical College	Weill Cornell Medical College	Depressive Symptomatology in Idiopathic Normal Pressure Hydrocephalus	Lisa D. Ravdin, PhD
Cheng	Janice	Weill Cornell Medical College	Weill Cornell Medical College	MRI Hyperintensities in the Aging Brain	Faith Gunning-Dixon, PhD
Brown	Ethan	Weill Cornell Medical College	Weill Cornell Medical College	Prevalence of Pharmacogenetic Risk Alleles in a Consanguineous Middle-Eastern Population	Timothy O'Connor, PhD
Beock	Marissa	Weill Cornell Medical College	Weill Cornell Medical College	Age and the Incidence of Adverse Events in Older Breast Cancer Patients Receiving Chemotherapy	Linda Vahdat, MD
Heyman	Katherine P.	Weill Cornell Medical College	Weill Cornell Medical College	Laparoscopic vs Abdominal Hysterectomy: Does Age Affect Outcome?	Brian Slomovitz, MD
Spitz	Aerin	Weill Cornell Medical College	Weill Cornell Medical College	Opioids and Chronic Non-Cancer Pain in Older Adults	Cary Reid, MD, PhD
Lian	Xun (Julie)	Weill Cornell Medical College	Weill Cornell Medical College	An Immunohistological Study of Dementia Pugilistica: Evidence of Intraneuronal Accumulation of Aa42	Estibaliz Capetillo-Zarate, PhD Gunnar Gouras, MD
Tim	Brown	Weill Cornell Medical College	Weill Cornell Medical College	Self-Neglect: A Concept-Mapping Approach	Maria Pavlou, MD
Lee	Norm	Weill Cornell Medical College	Weill Cornell Medical College	The Outcomes of Photovaporization of the Prostate in Patients with Surgically Challenging Intravesical Prostatic Middle Lobes	Benjamin Choi, MD
